Art	Light and Dark	<p>Shadow Art - Explore the type of shadows you can make by building models or structures at home. You will need a strong light source - a torch or lamp. Ask an adult first.</p>  <p>Use kitchen foil, Lego, playdough, building blocks, cereal boxes or build a structure out of packaging. Anything will make interesting shadows.</p> <p>Take photographs of your shadows, draw around them on paper, colour them in... Let us see what they look like.</p>
